About ThreeL.Comm

#ShapingChangemakers

9.03%

of Indonesia's population still lives below the poverty line.

BPS, March 2024

This can be caused by limited access to quality education.

Therefore, we are here.

7.2M

people without work. Open unemployment 4.82%, February 2024.

0.379

Gini ratio for unequal income, the lowest in a decade. March 2024.

ThreeL is a group of young people who know poverty can be overcome through equal access to education and early education awareness.

Indonesia is moving toward a cleaner energy future. *But the transition is still challenging.*

The transition is not only about energy. It is about people who shape the future.

MORE THAN 1 IN 3

34.9%

of adolescents aged 10–17, around 15.5 million young people, experience mental health problems.

Yet only about 2–2.6% receive professional care.

Progressive policies **have not fully answered** this. A **gap between policy and implementation** remains: unequal services, a minimal mental health budget, youth STIs and risky sexual behavior, and reliance on hospitals.

Mental health is increasingly recognized as important.

11%

of Indonesian adults live with mental disorders.

<1%

of the health budget goes to mental health.

7.4%

smoking at ages 10–18 in 2023, down from 9.1% in 2018. E-cigarettes rose from 0.06% to 0.13%.

16%

of adults worldwide live with obesity (WHO, 2022).

— WHO WE ARE

ThreeL is a youth-driven community committed to breaking the cycle of poverty through education, technology, and social empowerment.

“Poverty is not only a lack of money, but a lack of opportunity.”

FEATURED PROGRAMS

Sustainable social change does not happen overnight.

It takes a deliberate and continuous process of formation. That is why ThreeL.Comm is more than a volunteer program organizer: it is an integrated development space that consistently forges, shapes, and empowers young people.

— THREE PILLARS

The three pillars of #ShapingChangemakers

Grounded in Reality

Leadership and social sensitivity take shape when young people engage directly with real problems: educational disparity, limited access to energy, and health vulnerability.

Empathy → Action

Care must lead to concrete, measurable action instead of stopping at pity.

Values × Collaboration

Growing changemakers who work together as equals, with a work ethic grounded in moral responsibility and openness.

— VISION & MISSION

Creating a future without poverty

VISION

To be a youth-driven community rooted in care and synergy, shaping changemakers through educational innovation, applied technology, and environmental sustainability.

MISSION

Shaping Changemakers

Forging youth capacity

Building a healthy, inclusive development ecosystem that raises young cadres with character, critical thinking, and resilience in the face of social challenges.

Solution-Oriented Innovation

Delivering fit-for-purpose solutions

Developing alternative education programs and applied technology that answer basic community needs in education, energy, and health.

Sustainable Impact

Advancing environmental and social sustainability

Initiating social movements for environmental conservation, a better quality of life for vulnerable communities, and the Sustainable Development Goals (SDGs).

Strategic Synergy

Building multi-stakeholder collaboration

Building equal, lasting partnerships with government, academia, the private sector, and communities to widen the reach of positive impact.
